

Contents to Volume 16 (1993)

<i>R.E. Beer and J. Ulrich (Switzerland)</i> Alzheimer plaque density and duration of dementia	1
<i>Y. Miyashita, S. Morimoto, K. Fukuo, T. Masuyama, O. Yasuda, E. Koh, M. Tamatani, T. Nakahashi and T. Ogihara (Japan)</i> Relation between low serum cholesteryl-ester transfer activity and abdominal aortic calcification in normolipidemic elderly subjects	9
<i>L.S. Luckinbill (USA)</i> Prospective and retrospective tests of evolutionary theories of senescence	17
<i>M. Noppen, W. Vincken, M. Meysman, E. Segers, M. Dewaele and T. Mets (Belgium)</i> Clinical usefulness and safety of bronchoalveolar lavage (BAL) in elderly patients	33
<i>S. Tóth, J. Sármány and V. Kelemen (Hungary)</i> Age-dependent alteration of neural visual adaptation	39
<i>B.S. Jena and B.K. Patnaik (India)</i> Effect of thermal inactivation and ATP on age related changes in hepatic glutamate dehydrogenase activity of male garden lizard	51
<i>K. Miyasaka, K. Tateishi, H. Tomita, N. Sazaki, K. Okubo, M. Matsumoto and A. Funakoshi (Japan)</i> Evidence for the effect of aging on tissue contents of gastrin, cholecystokinin and somatostatin in the rat	59
<i>L.H. Chen, T.L. Huang and D.L. Synder (USA)</i> Effects of moderate dietary restriction and age on blood parameters and metabolic enzymes in Lobund-Wistar rats	69
<i>C. Pieri, R. Recchioni and F. Moroni (Italy)</i> Food restriction in female Wistar rats. VI. Effect of reduced glutathione on the proliferative response of splenic lymphocytes from ad libitum fed and food restricted animals	81
<i>E. Ortega, M. Galán, M. De la Fuente and C. Barriga (Spain)</i> Influence of physical activity stress and age on the ADCC of lymphocytes from mice	93

- N. Ogawa, M. Asanuma, H. Hirata, Y. Kondo, Y. Kawada and A. Mori (Japan)*
Cholinergic deficits in aged rat brain are corrected with nicergoline 103
- K. Woodhouse and B. Herd (UK)*
The effect of age and gender on glucuronidation and sulphation in rat liver:
a study using paracetamol as a model substrate 111
- Z. Krištofiková, J. Klaschka, V. Němcová, E. Majer and E. Fales (Czechoslovakia)*
Effect of postmortem storage on the [³H]hemicholinium-3 binding site in the
rat brain. Preliminary study for investigations of human patients with
Alzheimer's disease 117
- M. Olofsson and L. Bäckman (Sweden)*
Predictors of prose recall in adulthood and old age 129
- C. Viticchi and L. Piantanelli (Italy)*
Parallel decrease of adenylyl cyclase activity and β_1 -adrenoceptor density in
brain cortex of aging mice 141
- D. Platt, J. Horn, J.-D. Summa, R. Schmitt-Rüth, J. Kauntz and E. Krönert
(Germany)*
On the efficacy of piracetam in geriatric patients with acute cerebral ischemia:
A clinically controlled double-blind study 149
- K. Miyasaka, M. Matsumoto, H. Tomita, N. Sazaki, K. Okubo, F. Shikado and
A. Funakoshi (Japan)*
Different response of brain cholecystokinin content to intragastric adminis-
tration of trypsin inhibitor (camostate) in young and old rats 165
- G. Molnár, T. Glaub, Á. Such, K.Zs. Bazsáné, Gy. Pék, M. Csiky-Mészáros and
T. Fülöp (Hungary)*
Ageing and problems in differential diagnosis of psychoorganic syndromes 177
- M. Asanuma, N. Ogawa, Y. Kondo, H. Hirata and A. Mori (Japan)*
Effects of repeated administration of rolipram, a cAMP-specific phos-
phodiesterase inhibitor, on acetylcholinergic indices in the aged rat brain 191
- A. Myśliwski, J. Myśliwska, T. Chodnik, J. Bigda, E. Bryl and J. Foerster
(Poland)*
Elderly high NK responders are characterized by intensive proliferative
response to PHA and Con A and optimal health status 199
- P.N. Mishra and B.K. Patnaik (India)*
Effect of two inhibitors on succinic dehydrogenase activity in cerebral
hemispheres of male garden lizards of three different age groups 207
- S.-i. Morimoto, S. Komatsu, R. Takahashi, M. Matsuo and S. Goto (Japan)*
Age-related change in the amount of ubiquitinated histones in the mouse brain 217

<i>A. Bianchetti, O. Zanetti, R. Rozzini and M. Trabucchi (Italy)</i> Risk factors for the development of pressure sores in hospitalized elderly patients: Results of a prospective study	225
<i>M. Ueno, I. Akiguchi, H. Yagi, H. Naiki, Y. Fujibayashi, J. Kimura and T. Takeda (Japan)</i> Age-related changes in barrier function in mouse brain I. Accelerated age-related increase of brain transfer of serum albumin in accelerated senescence prone SAM-P/8 mice with deficits in learning and memory	233
<i>A. Cantafora, R. Masella, E. Pignatelli and R. Verna (Italy)</i> Age-related changes in blood and liver lipids of male Wistar rats	249
<i>G. Paradies, F.M. Ruggiero, G. Petrosillo and E. Quagliariello (Italy)</i> Age-dependent decrease in the cytochrome <i>c</i> oxidase activity and changes in phospholipids in rat-heart mitochondria	263
